### **Course Description**

This course will explore the practice of teaching and learning. In this course, the primary goal is to help students to make the transition from student to future colleague, thus there will also be a heavy emphasis on professionalization into the discipline.

This course has three major desired learning outcomes. At the end of this course, students will be able to:

- Describe effective practices in teaching communication and recognize the potential pitfalls of teaching as a future colleague.
- Apply learning theories in the construction of teaching materials and course design.
- Evaluate and justify their teaching practices.

These goals will be assessed through the construction of a teaching portfolio that will include a curriculum vitae, teaching philosophy, syllabus for a course of the student's choosing, and accompanying assignments for that course. During in-class activities and discussion, students will have opportunities to explore their own beliefs and values concerning pedagogical practice.

I expect that each student will come to class prepared to discuss the readings for the day. According to the University of South Alabama's Academic Policies and Procedures, "Each hour of lecture usually requires two hours of outside preparation. Thus, a student carrying sixteen semester hours should be prepared to spend at least 48 hours in class and study per week."

### **Required Texts**

Vangelisti, Anita L., John A. Daly, and Gustav W. Friedrich, eds. *Teaching Communication: Theory, Research, and Methods*. 2nd ed. Mahwah, NJ: Lawrence Erlbaum Associates, 1999.

Other required readings will be available through the library's online course reserves.

### **Suggested Texts**

Although these texts will not be required reading in the course, I would encourage you to use these texts to consider alternative views concerning pedagogical practice. I would strongly recommend the first text as a practical, nuts and bolts "what do I do when...." book. The second

two provide insight into the nature of teaching itself and although some of the recommendations may seem dated, they provide a place to start thinking about the philosophy of education itself.

McKeachie, Wilbert James, Marilla D. Svinicki, and Barbara K. Hofer. *McKeachie's Teaching Tips: Strategies, Research, and Theory for College and University Teachers*. 12th ed, College Teaching Series. Boston: Houghton Mifflin, 2006.

Postman, Neil. *Teaching as a Conserving Activity*. New York: Delacorte Press, 1979.

Postman, Neil, and Charles Weingartner. *Teaching as a Subversive Activity*. New York: Delacorte Press, 1969.

### **Class Climate**

Respect for others in the class is an essential component of this class. Arguments should be made in a spirit of inquiry rather than as personal attacks. My primary goal is to maintain a class climate in which differing viewpoints can be safely expressed.

### **Attendance Policy**

This is a graduate course, so I assume that by now you recognize the value of regular class attendance. This course relies heavily on in-class discussion. Excessive absences will negatively impact your grade in this course. If you are not present, you are not able to participate and it is impossible to make up the discussion. You get one absence free—no questions asked. However, after one absence, each absence will decrease your final grade by 10 points (a full letter grade), so use it wisely. This may seem harsh, but this course only meets eight times, so every day is essential. In addition, there may be in-class activities that are impossible to make up. If you are absent, please do not email me asking, “What did I miss?” You missed four and a half hours of discussion and perhaps an assignment. Make friends with your classmates and get the notes from them and/or come to my office hours.

### **Academic Honesty**

From the Student Academic Conduct Policies: “Any dishonesty related to academic work or records constitutes academic misconduct including, but not limited to, activities such as giving or receiving unauthorized aid in tests and examinations, improperly obtaining a copy of an examination, plagiarism, misrepresentation of information, or altering transcripts or university records. . . . Penalties may range from the loss of credit for a particular assignment to dismissal from the University” (*The Lowdown*, p. 249). In short, don’t do it. I don’t like to bust students for plagiarism or other forms of academic dishonesty but I will. It isn’t fair to others and it isn’t fair to yourself. If you have any questions on what constitutes plagiarism, see <http://www.southalabama.edu/univlib/sauer/plagiarismforstudents.html>.

## Assignments

**Teaching Portfolio:** The teaching portfolio will be broken up into several assignments. This will be useful when you apply for faculty positions or assistantships in doctoral programs.

- **Curriculum Vitae:** An important part of any dossier is the curriculum vitae. This is a resume of your academic activities. The curriculum vitae is due **May 28**.
- **Teaching Philosophy:** This is a reflection of your own beliefs, values, and goals concerning pedagogical practice. You will likely continue to revise this long after the course is over. That said, the statement of teaching philosophy should be well thought out, clearly written, and something you are willing to defend if questioned. The teaching philosophy is due **June 11**.
- **Upper Division Syllabus:** In this assignment, you will create a syllabus for an upper division course that reflects your specialty. However, the syllabus itself is less important than the reasoning behind it. For this assignment, you will be required to annotate the syllabus to reflect your reasoning in designing the syllabus. In other words, you will be required to explain book choice, if any, learning outcomes, assignments, etc. The syllabus is due **June 22**.
- **Assignments:** In addition to the syllabus, you will be required to develop assignments. With the assignment, you will turn in a discussion of how the assignment will assess your desired learning outcomes. Assignment(s) will be due **June 22**.

**Participation:** Participation is more than simply showing up. In order for you to succeed in this class it is imperative that you come prepared, having read the assignments for the day and ready to discuss them.

There will be no final exam in this course; the teaching portfolio will serve that purpose. Late work, if accepted, will receive half credit.

## Grading Scale

There are a total of 100 points available in this course:

Teaching Philosophy: 10

Curriculum Vitae: 10

Syllabus: 25

Assignment(s): 25

Participation: 30

A=90-100; B=80-89.99; C=70-79.99; D=60-69.99; F=below 60

## Statement Regarding Students with Disabilities

In accordance with the Americans with Disabilities Act, students with bona fide disabilities will be afforded reasonable accommodation. The Office of Special Student Services will certify a disability and advise faculty members of reasonable accommodations. If you will need special accommodations please talk to me as soon as possible.

## **A Note on my Teaching Philosophy**

I believe that every student in my class has the ability to succeed in this course. My goal is to create a comfortable environment in which you can explore and improve your ability to think critically and skillfully present your ideas to an audience. I do not “give” grades; students earn grades—no one is entitled to get an “A” in a class unless they earn it. I cannot grade on effort—I must grade what you actually do. My job is to push students to do their best and to then exceed that standard. I recognize that this is futile unless I also provide the support and assistance that each student needs to excel. Therefore, I provide office hours and expect students to use them and am generally available through email. I assume that attaining a university degree is your first priority. If this is not the case, it is less likely that you will excel. As graduate students, I see you less as students and more as potential future colleagues. There is really only one way to master the material such that you can be said to truly have earned a master’s degree, and that is to seriously grapple with the material and consume and absorb as much of it as possible. The readings in this class are not simply academic hazing; my goal is to provide you with the tools that you will need to become an effective scholar and educator. Bottom line—you do your part to excel and I will be there to help you reach that goal.

June 22      **Complete Teaching Portfolio Due**

**Regarding Changes in Course Requirements**

Since all classes do not progress at the same rate, the instructor may wish to modify the above requirements or their timing as circumstances dictate. For example, the instructor may wish to change the number and frequency of exams, or the number and sequence of assignments. However, the students must be given adequate notification. Moreover, there may be non-typical classes for which these requirements are not strictly applicable in each instance and may need modification. If such modification is needed, it must be in writing and conform to the spirit of this policy statement.
